

Arnold Cutad Jr.

Full-Stack Web Developer

cutadalamo@gmail.com · [linkedin.com/in/arnold-cutad-512b1642b](https://www.linkedin.com/in/arnold-cutad-512b1642b) · github.com/FitzFitzFitzACJR · Cebu, Philippines

SUMMARY

IT graduate and full-stack web developer who builds with Angular, React, Node.js, Express and PHP, with hands-on experience in REST API integration, database design, authentication, role-based access control and AI integration.

TECHNICAL SKILLS

Frontend: Angular, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, PrimeNG

Backend: Node.js, Express.js, PHP, REST APIs

Databases: MySQL, PostgreSQL, Database design, CRUD

Auth & Security: JWT, Authentication, Role-based access control

AI Integration: Flowise AI, AI APIs, Streaming responses

Tools & Deployment: Git, GitHub, Render, VS Code, Environment configuration

QA & Process: Test planning, Bug reporting, Regression testing, Test matrices, Test automation tooling, Project management, Agile planning

EXPERIENCE

Software Developer – Frontend, Elf Station Inc. (Internship)

Jan 2026 – May 2026

- Developed an Angular 19 building-permit portal supporting new applications, renewals, amendments and ancillary permits.
- Implemented JWT authentication, route guards and HTTP interceptors for secure REST API access.
- Built a multi-step application wizard with reactive forms and local draft storage, so users can save and resume applications.
- Developed workflows for documents, payments, issued permits and inspection requests, along with role-based dashboards and navigation.

PROJECTS

WEBeenThere · Project Manager & Frontend Developer · team project

An AI-powered website builder that lets creators and local businesses generate, customize and publish professional websites. · github.com/Kurisu21/webeenthere

Next.js, Node.js, Express, MySQL, GrapesJS, OpenRouter, DeepSeek

QA Launcher · Solo developer

A launcher that automates logins, so QA testing starts in one click instead of repeated manual sign-ins.

JavaScript, HTML, CSS

Portfolio AI · Solo developer

This portfolio site: React + Express with an AI assistant, powered by Claude, that answers visitors' questions about Arnold's experience and projects. · github.com/FitzFitzFitzACJR/portfolio

React, Vite, Tailwind CSS, Node.js, Express, Claude API, Render

CCS Sit-In Management System · Developer

A PHP and MySQL laboratory monitoring system with session tracking, user management and reporting. ·

github.com/FitzFitzFitzACJR/SysArch-SitInMonitoringSystem

PHP, MySQL, JavaScript, HTML, CSS

EDUCATION

Bachelor of Science in Information Technology

2022 – Jun 2026

University of Cebu – Main Campus, Cebu City

CERTIFICATIONS

- Cisco: Introduction to Networks
